

Locco (low-koh) Floor Standing Kiosk Line

The Locco's design is simple yet savvy.

The Locco features a simple, modern look and low price that allows everyone to benefit from high-end kiosk technology without compromising quality or functionality. The Locco supports more options than any PK kiosk, including printing, cash and coin handling, access options, security and biosensing peripherals, overhead marquis monitors and light boxes, monitor size upgrades, and more. The Locco quickly became one of PK's most popular models due to its simple but striking look, and its affordability.

The Locco is a perfect candidate for high-use, transactional applications. Bill payment and ticketing are common applications, as well as human resources, eConcierge services, check-in/check-out, surveys, and retail applications. The Locco model can be delivered in a variety of formats... It is available with a dual display that can be utilized for advertising or other messaging. A sit-down model of the Locco is also available for applications that require users to be at the kiosk for more than a few minutes.

Many clients use the Locco Kiosk Line for the following:

- Human Resources
- Bill Payment & Ticketing
- Printed Security/Identification Cards
- eConcierge
- Check-In/Check-Out
- In-Store Cataloguing/Product Showcases
- Surveys & Lead Generation
- Recording/Photos
- Web-Based Applications
