

## Piitch (pich) Floor Standing Kiosk Line

**The Piitch is both a beauty and a beast.**

**The Piitch successfully invites interaction and inspires** awe without using a lot of space. Available with a 26", 32", or 42" LCD and touch screen (portrait or landscape), the unit makes a stunning directory or wayfinding kiosk. It is big enough, though, to also house a card reader or barcode scanner, which enables it to handle certain types of transactional applications.

The Piitch's large, sloped screen area makes user interaction almost inevitable. The unit's attractiveness makes it a great data collection kiosk for things such as lead generation and loyalty programs. The Piitch also lends itself well to graphics and custom finishes due to its large facade and gentle curvature.

### Many clients use the Piitch Kiosk Line for the following:

- **Business Directory/Wayfinding**
- **eConcierge**
- **In-Store Cataloguing/Product Showcases**
- **Survey/Lead Generation**
- **Certain Transactional Applications**
- **Recording/Photos**
- **Branding/Advertising**
- **Sponsored Messaging**
- **Web-Based Applications**

**Just ask Phoenix Kiosk** how we can improve your institution or company by making it more efficient and more effective. We are here to help you achieve your goals!
