

Pravantt (pra-vaunt) Digital Signage Kiosk

The Pravantt line of digital signage features a simple, elegant form, as well as an integrated PC and a full host of USB and PC ports.

The Pravantt is a great solution because it can provide a cross-over application that's a little bit signage and a little bit kiosk. The Pravantt is fully mountable using industry-standard wall mounts or device-suspendable hardware. Touch screens are easily incorporated for self-service applications, and card readers can also be added.

The flexibility of the Pravantt makes it a great choice for a variety of settings. The unit is primarily utilized as a tool for marketing, advertising, and lead generation because of its ability to effectively display product showcases, surveys, and web-based applications. The Pravantt is also a logical candidate for use as a wayfinding kiosk or digital directory.

Many clients use the Pravantt Kiosk Line for the following:

- **Business Directory/Wayfinding**
- **In-Store Cataloguing/Product Showcases**
- **Branding/Advertising**
- **Sponsored Messaging**
- **Surveys & Lead Generation**
- **Web-Based Applications**
