

Vollitus (vahl-uh-tiss) Digital Signage Kiosk

The Vollitus is slim and sexy and can easily incorporate touch screens.

The Vollitus line is the perfect fit for companies that wish to add a static branding component to their digital message. The Vollitus attracts attention to a custom, full-color logo that is designed onto the inset area above the monitor. The Vollitus is fully mountable using industry-standard wall mounts or device-suspendable hardware. It includes a full host of USB and PC ports, and a PC can easily be integrated.

The flexibility of the Vollitus makes it a great choice for a variety of settings. The unit is often placed in a lobby setting as an impressive digital element for marketing and advertising purposes. Touch screens are easily incorporated for self-service applications – therefore, the Vollitus is commonly utilized as a wayfinding kiosk or digital directory.

The Vollitus can also serve as a tool for lead generation because it effectively displays product showcases, surveys, and web-based applications. Card readers can also be added.

Many clients use the Vollitus Kiosk Line for the following:

- **Business Directory/Wayfinding**
- **In-Store Cataloguing/Product Showcases**
- **Branding/Advertising**
- **Sponsored Messaging**
- **Surveys & Lead Generation**
- **Web-Based Applications**
